

FORMAT OF THE LAB RECORD TO BE PREPARED BY THE STUDENTS

The front page of the lab record prepared by the students should have a cover page as displayed below.

NAME OF THE LAB

Font should be (Size 20", italics bold, Times New Roman)

Faculty name

Student name:

Roll No.:

Semester:

Group:

Font should be (12", Times Roman)

Maharaja Agrasen Institute of Technology, PSP Area,

Sector – 22, Rohini, New Delhi – 110085

Font should be (18", Times Roman)

MAHARAJA AGRASEN INSTITUTE OF TECHNOLOGY

VISION

To attain global excellence through **education, innovation, research, and work ethics** with the commitment to **serve humanity**.

MISSION

M1. To promote diversification by adopting advancement in science, technology, management, and allied discipline through continuous learning

M2. To foster **moral values** in students and equip them for developing sustainable solutions to serve both national and global needs in society and industry.

M3. To **digitize educational resources and process** for enhanced teaching and effective learning.

M4. To cultivate an **environment** supporting **incubation, product development, technology transfer, capacity building and entrepreneurship**.

M5. To encourage **faculty-student networking with alumni, industry, institutions**, and other **stakeholders** for collective engagement.

Department of Information Technology

VISION

To establish a center of excellence promoting Information Technology related education and research for preparing technocrats and entrepreneurs with ethical values.

MISSION

M1: To excel in the field by imparting quality education and skills for software development and applications.

M2: To establish a conducive environment that promotes intellectual growth and research.

M3: To facilitate students to acquire entrepreneurial skills for innovation and product development.

M4: To encourage students to participate in competitive events and industry interaction with a focus on continuous learning.

Program Specific Outcomes (PSOs)

PSO1: Students are equipped with programming technologies applied in the industry.

PSO2: Students are able to provide efficient solutions for emerging challenges in the computation domain such as Artificial Intelligence, Data Science, Web Technologies.

PSO3: Students are able to apply domain knowledge and expertise in the field of Information Technology for enhancing research capability to transform innovative ideas into reality.

CO of the lab subject and its mapping with PO AND PSO

Course Objectives

- 1.To introduce basic concepts, architecture and characteristics of database systems
2. To introduce relational model concepts and PL/SQL programming
3. To introduce relational database design and Normal forms based on functional dependencies
4. To introduce concepts of object oriented & distributed databases.

Course Outcomes (CO)

CO 1 Ability to understand advantages of database systems

CO 2 Ability to use SQL as DDL, DCL and DML

CO 3 Ability to design database and manage transaction processing

CO 4 Understand object oriented & distributed databases systems and use them

Course Outcomes (CO) to Programme Outcomes (PO) mapping (scale 1: low,2: Medium, 3: High)

As Available on GGSIPU website

CIC-256	Database Management System Lab (CO-PO mapping)											
	P O 01	PO02	PO03	PO04	PO05	PO06	PO07	PO08	PO09	PO10	PO11	PO12
CIC-256.1	3	3	2	2	2	-	-	-	3	2	2	3
CIC-256.2	3	3	2	2	2	-	-	-	3	2	2	3
CIC-256.3	3	3	2	3	3	-	-	-	3	2	2	3
CIC-256.4	3	3	2	3	3	-	-	-	3	2	2	3

CIC-256	(CO-PSO mapping)		
	PSO1	PSO2	PSO3
CIC-256.1	3	3	2
CIC-256.2	3	3	3
CIC-256.3	3	3	2
CIC-256.4	2	3	3

Rubrics Evaluation

Rubric/ Marks		0	1	2	3
		Missing	Inadequate	Needs Improvement	Adequate
R1	Is able to identify the problem to be solved and define the objective of the experiment	No mention is made of the problem to be solved.	Problem is vaguely identified and objectives are not relevant or erroneous	There are minor omissions or vague details. Objectives are conceptually correct and measurable but incomplete.	The problem to be solved is clearly stated. Objectives are complete, specific, concise, and measurable.
R2	Is able to design a reliable experiment that solves the problem.	The experiment does not solve the problem. Solution is not implemented at all	The experiment is designed to solve the problem but contains missing links. Solution is attempted but implementation is not correct	The experiment attempts to solve the problem but needs improvement to correctly arrive at it. Solution is partially implemented	The experiment solves the problem and has with generic logic applicable to generic data. Solution is fully implemented.
R3	Is able to communicate the details of an experimental procedure clearly and completely.	Diagrams are missing and/or experimental procedure is missing or extremely vague.	Diagrams are present but do not properly describe the procedure	Diagrams and/or experimental procedures are present but with errors that may result in invalid conclusion	Diagrams and/or experimental procedure are clear and complete.
R4	Is able to record and represent data in a meaningful way.	Data are either absent or incomprehensible.	Some important data are absent or incomprehensible.	All-important data are present, but recorded in an incomprehensible way	All-important data are present, organized and recorded clearly.
R5	Is able to make a judgment about the results of the experiment.	No discussion is presented about the results of the experiment.	A judgment is made about the results, but it is not reasonable or coherent.	An acceptable judgment is made about the result, but the reasoning is flawed or incomplete.	An acceptable judgment is made about the result, with valid conclusions

Database Management system Lab

PRACTICAL RECORD

Section/ Group :

a) Experiments according to the list provided by GGSIPU

[illegible]

b) Experiments beyond the list provided by GGSIPU

[illegible]
